

Posters can be printed in either portrait or landscape. Our poster paper is 36 inches wide so one side of your poster must be 36 inches or smaller (if smaller, there will be a white border that we do not cut down).

We accept PDF or PowerPoint files only (ideally send both). Please ensure that the file is formatted to the correct dimensions of your poster with a width of no larger than 36". *There have been known issues with certain types of graphics not printing correctly.* Please print a small proof to ensure that your graphics will print.

Note: Posters are printed as-is so please ensure that there are no errors or omissions in the file provided before emailing it.
