

MD PROGRAM

VISION

We aspire to be leaders in training future physicians who foster outstanding interprofessional care and challenge the norms of care delivery to effectively serve our region.

MISSION

As educational leaders delivering innovative interprofessional curriculum, we train compassionate, resilient physicians to the highest caliber who will help change the future of healthcare in their communities. We train physicians who are prepared to address health equity and access issues, and to champion the needs of equity-deserving groups through practice informed by the principles of generalism and interprofessional collaboration.

The School of Medicine offers a four-year program leading to the degree of Doctor of Medicine. This program must meet all the requirements for accreditation and prepare graduates for
