

Think About It...

- 1. What is the apparatus that doctors use to check our heart?
- 2. How do these devices work?

Listening to Everyday Objects - Activity!

Materials

- Slinky ™
- Metal Coat Hanger
- Fork
- Spoon

Task 1: Hold one end of your earphones near the Slinky[™], and the other at your ear. Have a partner pluck the Slinky[™] while you listen.

Task 2: Using two sets of earphones, have an end near each end of the coat with the other ends of the earphones held to your ear. Have a partner tap the hanger while you listen.

Task 3: Hold one end of your earphones near the fork, and the other at your ear. Have a partner pluck the fork while you listen.

Task 4: Hold one end of your earphones near the spoon, and the other at your ear. Have a partner pluck the spoon while you listen.
