

Name: _____

How do things get moving? A force is given to an object; either a push or a pull.

Can you describe the movement shown in the following images?

a)

b) _____

c) _____

d) _____

- Pushpin
- Cork
- Thumbtacks
- Pipe cleaner
- Large paper clip
- Broom/mop handle

1. Use a pushpin to make 4 holes on each side of the cork. Insert half-lengths of pipe cleaner into each hole and bend them to make a ball. Use the thumbtack to hold the ball in place.
