

Senate Operations Review Committee
Report to Senate – Meeting of September 25, 2008
Proposed Revisions to the Composition and Terms of Reference of the
Senate Advisory Research Committee

Introduction

The Senate Operations Review Committee (SORC) was asked to review a proposal to revise the composition and terms of reference of the Senate Advisory Research Committee (SARC).

Review of the Issues

SORC reviewed the letter from K. Rowe, Vice-Principal (Research) requesting amendments to the composition and terms of reference of SARC and met with Dr. Susan Wood, Director, Office of Research Services on May 29, 2008.

Dr. Wood provided a brief history of the evolution of SARC from a committee of the School of Graduate Studies and Research (SGSR) to a Senate Committee in 1999. The request for revisions was informed by the anomaly of the SGSR being responsible for filling membership on a committee that no longer falls under its auspices. The situation was further complicated by the fact that the SARC subcommittees include research areas that do not have graduate programs, for example, Family Medicine.

The proposed changes ensure broad representation and accommodate post-doctoral fellows whose work enriches the research activities of the University. The proposed changes also reduce the size of the Committee by three which will help to address the challenges of managing a large committee. Therefore, SORC agreed to grant provisional approval to the attached revisions to the terms of reference and composition and to present the proposed changes to the Senate on September 25, 2008 for ratification.

Conclusions/Recommendations

The Senate Operations Review Committee recommends that the Senate ratify the revisions to the terms of reference and composition of the Senate Advisory Research Committee as presented in the attached document, to take effect retroactively on June 1, 2008.

Respectfully submitted
